***“Beauty at its Finest, Reliability
at its Toughest!”***

***“At UDMC, Protection is our
Priority, Perfection is our
Integrity!”***

About the Company

A 100% Filipino company, United Defense Manufacturing Corp. (UDMC) is engaged in two strategic business units. Both SBU's are engaged in the sales and distribution of defense equipment to the military and law enforcement agencies.

First, UDMC manufactures NATO standard rifles in calibers 5.56x45mm assault rifles and 7.62x51mm sniper rifles. Its sniper rifles are available in both semi-automatic and bolt action platforms using premium match barrels produced in the Philippines from Bergara barrel blanks in stainless steel SS-410 and SS-416 premium alloys. The barrels of their full-automatic assault rifles are made of 4150 carbon steel. UDMC holds three (3) Philippine patents for the unique design of their Philippine-manufactured assault rifles and precision rifles in gas-piston technology, an improvement over the Stoner-designed direct gas impingement system. UDMC has recently introduced the Bergara bolt action sniper rifles in calibers .338 Lapua and 6.5mm Creedmoor made in Spain by Dikar S. Coop. Bergara.

Second, UDMC represents foreign principals in promoting and distributing their defense articles in the Philippines for military and law enforcement use. Such articles are night fighting systems, force protection systems, armored personnel carriers, tanks, naval assets, air assets, and other defense articles. UDMC has a wealth of experience in government tenders and knows very well the procurement law and procurement processes of the Philippine government under R.A. 9184 and its Implementing Rules and Regulations. This law is better known as the Government Procurement Reform Act.

OUR VISION

A market leader in weapons manufacturing, design, research and development that seeks profitable business opportunities for our Principals, Dealers and other Stakeholders while guaranteeing to our Customers the safest, reliable, accurate, and technologically advanced weapons.

OUR MISSION

We will add value to our products through the development of quality processes and the application of innovative research and development activities while applying advanced information technology and the use of state-of-the-art manufacturing equipment in pursuit of our business philosophy for continuous improvement.

We will satisfy the needs of our Customers by continuously improving our quality standards and technical expertise while striving to develop long-term business partnerships with our Principals, Dealers and other Stakeholders through innovation and reliability.

We will help the Armed Forces of the Philippines, the Philippine National Police, the Philippine Coast Guard, other law enforcement agencies, and the Philippine government as a whole, in its Self-Reliant Defense Posture (SRDP) program and other weapons capability upgrade programs.

We will harness the potential of our organization to export our products to foreign governments and foreign military forces friendly to democratic ideals.

We will empower our people to accelerate growth and development of our organization as a whole.

We will be a customer-focused, entrepreneurial, and proactive organization of dynamic teams trained to world-class standards.

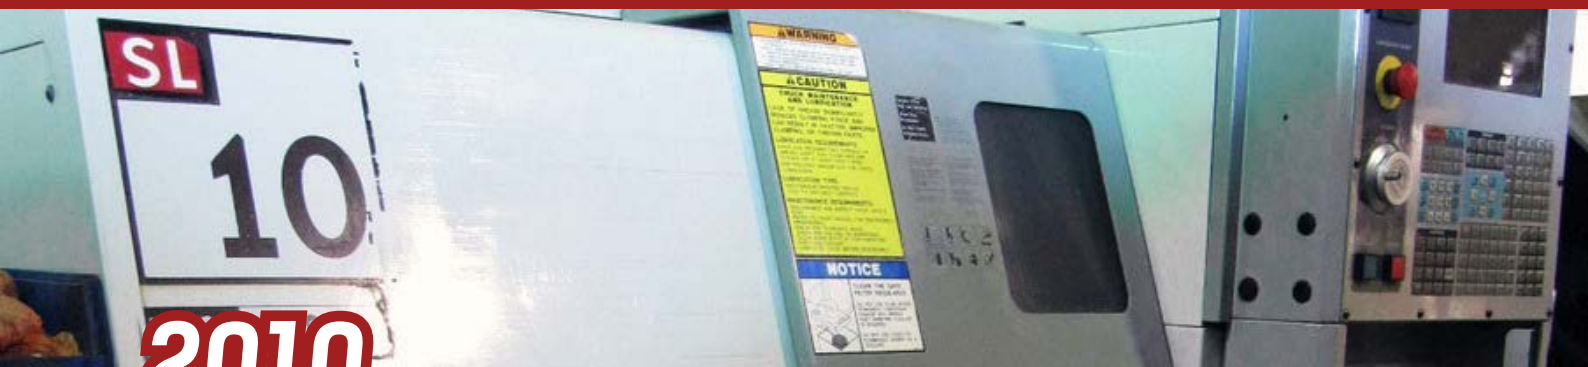

2008

- Received its License to Operate as Manufacturer of Military Grade Rifles
- Starts Research and Development, Caliber 5.56 NATO rifles

2009

- UDMC and Philippine Navy signs MOA to co-develop the F5-PVAR and F5-DGIS assault rifles
- Focus on the Philippine Navy SEALs as co-developer
- Granted 1st Philippine Patent, No. 1-2009-000176

2010

- UDMC invests on CNC machines and other modern production equipment

Republic of the Philippines

Patent No. **1-2011-000062**

Having complied with the provisions of Republic Act No. 8293 and its regulations, this Office grants **LETTERS PATENT** for an

INVENTION

the pertinent data, specification and claim/s of which are hereunto annexed and made part hereof.

Now, therefore, this **LETTERS PATENT** grants unto its owner/s the exclusive right throughout the Philippines to make, use, sell or import the invention and where the invention is or includes a process, including the product obtained directly or indirectly from such process; and

Unless sooner terminated as provided for by law and the regulations, the term of this **LETTERS PATENT** shall be **TWENTY (20) YEARS** from the date of

ABSTRACT

tic valve and rod gas-piston system for rifles comprising:
 and bolt head assembly, hollow handguard disposed forwardly of
 ssembly, a rod assembly and a barrel being held within the handgua
 trefrom, and a pneumatic valve assembly being attached to said r
 rrel, said bolt carrier assembly includes a housing having a bolt he
 ed thereof, said bolt head assembly being integrated with th
 ember disposed within said housing having a firing pin movably
 andguard having a plurality of bores which serve as gas exit ports
 sting of a biasing rod member having a gas expansion chamber
 'ion with said pneumatic valve assembly, said rod member being
 is capable of actuating the solid bolt carrier key upon entry of
 gas within the gas expansion chamber, said pneumatic valve
 a gas block having a rifle sight integrally connected thereof, a
 valve member disposed within the gas block and in
 gas expansion chamber of said rod member

PRODUCT BROCHURE

S7 Caliber 7.62 NATO Rifles

NOTE: These pictures are for illustration purposes only. The actual models may vary. Scopes, bipods, and other accessories will be priced accordingly.

S7-PVAR

Caliber : 7.62 NATO (7.62 x 51mm)
Operating System : Gas-Piston
Barrel Length : 22 inches, UDMC Bergara
Barrel Type : SS-410 or SS-416 Premium

Operating Selector : Semi-Automatic and Bolt-Action
Handguard Type : Free-Floated Keymod Rail
Magazine : 20 Rounds
Flash Hider : Compatible with Silencer

S7-DGIS Full Length

Caliber : 7.62 NATO (7.62 x 51mm)
Operating System : Gas-Operated
Barrel Length : 16 to 24 inches
Barrel Type : S-410 or SS-416 Premium
UDMC Bergara

Operating Selector : Semi-Automatic only
Handguard Type : Keymod Free-Floated Rail
Magazine : 20 Rounds
Flash Hider : Shuriken Low Flash or
Compensator Type

S7-DGIS Compact

Caliber : 7.62 NATO (7.62 x 51mm)
Operating System : Gas-Operated
Barrel Length : 14.5 to 18 inches
Barrel Type : S-410 or SS-416 Premium
UDMC Bergara

Operating Selector : Semi-Automatic only
Handguard Type : Keymod Free-Floated Rail
Magazine : 20 Rounds
Flash Hider : Shuriken Low Flash or
Compensator Type

S5/F5 Caliber 5.56 NATO Rifles

NOTE: These pictures are for illustration purposes only. The actual models may vary. Scopes, bipods, and other accessories will be priced accordingly.

OUR CORE VALUES

United Defense Manufacturing Corporation will be the EMPLOYER OF CHOICE in the weapons manufacturing, research and development industry.

Our organization will embrace a culture that is FORWARD-LOOKING, RESOURCEFUL, INNOVATIVE, FLEXIBLE and RESULTS-ORIENTED. Partnership with our Principals, Dealers and other Stakeholders will be a key ingredient in improving business results. We will create a work environment where our employees will be FLEXIBLE, can have the INITIATIVE to share their ideas, ACCEPT NEW RESPONSIBILITIES (not in their job description), assert their opinions, harness their potentials for PERSONAL ADVANCEMENT, sharpen their skills and be MULTI-TASKING in the workplace. Our employees will be treated fairly and listened to in an OPEN COMMUNICATION atmosphere as they share in the pursuit of the company's VISION, MISSION and CORE VALUES.

We are proud of our Filipino spirit of "MALASAKIT" which expresses mutual respect and concern for our Co-Employees, Customers, Principals, Dealers and other Stakeholders. This spirit of concern and ownership of one's work is leveraged on the employee's sense of PERSONAL RESPONSIBILITY for his job, family expectations and the company's social responsibility as a whole. There will be no room for "crab mentality" and professional jealousies throughout the organization. Inter-personal relationships shall be based on the pursuit of the company's VISION, MISSION and CORE VALUES rather than on friendships in the workplace.

We will provide our Principals, Dealers and other Stakeholders with VALUE-ADDED SERVICES which go beyond reliability as we strive to be receptive to their changing needs. We will build business relationships through professional partnerships where we exert influence and make a difference.

Our organization will stand out because of our PASSION FOR EXCELLENCE in achieving our goals. This COLLABORATION flows from our employees' PERSONAL ACCOUNTABILITY to excel in their individual work and commitment to the SUCCESS OF THEIR CO-EMPLOYEES in the spirit of TEAMWORK. This is also reinforced by initiative, sincerity, trust and respect for diversity in perspective and openness to persuasion.

We will be ENTREPRENEURIAL as a potent tool in gaining the competitive edge in our business, and to meet expectations of all our Principals, Dealers and other Stakeholders.

This type of LEADERSHIP will be reflected in our INNOVATION in work approach, OWNERSHIP of our actions, and hands-on URGENCY in achieving day-to-day results without losing sight of our STRATEGIC DIRECTIONS.

We shall take pride in our INTEGRITY which results from high ethical standards in conducting our business.

We will endeavor our very best to communicate our expectations and inspire adherence to these core values and standards throughout our organization.
